FIRST AID

IF SWALLOWED: Do not induce vomiting. Get emergency medical help immediately.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical help.

IF ON SKIN: Wash with plenty of water for several minutes. Take off contaminated clothing and wash it before reuse. If skin irritation or rash occurs, Get medical help.

IF IN EYES: Rinse cautiously with water for several minutes.

DIRECTIONS FOR USE:

USE ONLY AS DIRECTED.

- SHAKE WELL BEFORE USE.
- Hold can as upright as possible.

CRAWLING INSECTS:

- CONTACT SPRAY: Spray a one (1) second burst directly at the crawling insect.

CRAWLING INSECTS ON SURFACES:

- LONG LASTING CONTROL: Spray directly on to surfaces where insects travel, alight or enter buildings. When spraying, nozzle should be held 15-30 cm from the surface to ensure effective wetting of the area. For fleas control spray carpets and the top and underside of mats. Retreat as necessary.
- FLUSHING INSECTS OUT OF HIDING PLACES: Spray 1-2 second burst into cracks, crevices, cupboards, drawers and under sinks or other potential hiding places. This ensures hyperactivity and subsequent pick-up of the insecticide by the insect.
