RELEVANT SUBSTANCES

Permethrin, <1%, Cas No.: 52645-53-1; Piperonyl Butoxide, 1-10%, Cas No.: 51-03-6.

FIRST AID

Refer to response section below for detailed instructions.

Provide medical personnel with the container label, product name or safety data sheet (SDS) when seeking medical attention.

IF SWALLOWED: Keep patient calm and reassured, rinse mouth with water.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF ON SKIN: Wash thoroughly with soap and water. Do not rub skin hard. wash with plenty of water. If skin irritation or rash occurs get medical help.

IF IN EYES: Rinse cautiously with water for several minutes (15minutes). Remove contact lenses, if present and easy to do. Continue rinsing.

PERMADUST is a ready-to-use residual treatment for the control of crawling insects in local authority premises, public health situations and industry, including premises where food is stored, prepared, or eaten. It is particularly valuable in situations where water or oil-based insecticide formulations cannot be used.

The product may be used in the following situations:

Public Health including households, schools, hostels, hospitals, hotels, disinfestations clinics.

Food Handling and Storage including kitchens, canteens, restaurants, factories and warehouses.

Small Animal Bedding in domestic premises, kennels, pet shops, animal clinics, animal houses

DIRECTIONS FOR USE:

USE ONLY AS DIRECTED.

Cockroaches, Beetles, Silverfish, etc.

Liberally apply a band of powder to the floor along skirting boards, at wall/floor junctions, around cookers, fridges, fireplaces, pipes, rubbish chutes, dustbins, in cupboards and other places that insects are known to run or where they may find harbourage. Blow or sprinkle dust into cracks and crevices. Leave the powder undisturbed for as long as possible.

Ants, Crickets

Sprinkle powder freely along insect runs and around nests. Where ants are invading premises apply liberally to points of access, e.g. doorsteps, window frames, airbricks, cracks, and crevices and in electrical junction boxes.

Fleas and Bedbugs

Before applying the powder, ensure that the surfaces are clean and dust free. Vacuuming will remove dust, fluff, and debris. If a vacuum cleaner is used ensure small amount of the **PERMADUST** is sucked into the vacuum bag to kill adults and larvae before removing. Sprinkle powder on floors, carpets, bedsteads, bedsprings, mattresses, and upholstered furniture: wait several hours before vacuuming. Pay particular attention to insect harbourages such as cracks, crevices, seams, and folds of fabric.

Small Animal As an aid to the control of infestations, apply **PERMADUST** to the pets bedding, basket, carpets, and furniture used by infested animal. Do not apply directly to animals.

Retreat as necessary.
